

A Green Peak Alliance Collaboration

## Developmental Assets for young people

Kids need support and encouragement in order to thrive. These supports are known as **Developmental Assets**—positive experiences and qualities all of us have the power to bring into the lives of young people.

Green Peak Alliance is working to give local people—**parents, caregivers, teacher, coaches, and others**—the tools they need to identify, share, and strengthen these supports.

To help you help the kids in your life, we have created a  **Developmental Assets Toolkit.**

SEE REVERSE FOR DETAILS ►

## Developmental Assets Toolkit

Based on 40 Developmental Assets needed by young people, as identified by the nonprofit, independent Search Institute, our media toolkit includes social media messages based on seven key assets.

The toolkit is designed for sharing on social media, in newsletters, or in print, so please share everywhere! Check out the toolkit for tips and tools to connect and build positive relationships with your kids.

Find the  **Developmental Assets Toolkit** online at [www.greenpeakalliance.org/portfolio/assetsmediatoolkit](http://www.greenpeakalliance.org/portfolio/assetsmediatoolkit)

### EXTERNAL ASSETS

Support

Empowerment

Boundaries & Expectations

Constructive Use of Time

### INTERNAL ASSETS

Commitment to Learning

Positive Values

Social Competencies

Positive Identity

### PROJECT PARTNERS:

The Collaborative, Greater Falls Connections, Mt. Ascutney Prevention Partnership, Springfield School District

### ABOUT GREEN PEAK ALLIANCE

Established in 2018, Green Peak Alliance is a regional network of organizations promoting healthy communities and substance misuse prevention in East Central Vermont through assessments, education, and outreach. Our members include regional planning partners, law enforcement, schools, and service organizations.
