Transitional Living Program

Our Transition House provides individuals in recovery with a safe, substance-free, home. A live-in House Manager provides structure and accountability. Turning Point staff, volunteers, as well as various community partners, provide individuals with support & referrals to local services. Our program is successful because it provides individuals with the support and education they need to transition back into the community.

Recovery Coaching

Our nationally certified Peer Recovery Coaches provide 1:1 support for individuals seeking recovery from addiction. Through office visits, community/ recreational activities, and more, we collaboratively establish personal goals & action plans for self-improvement. Together with their Recovery Coach, participants explore opportunities, overcome challenges, and seek assistance when needed. Recovery Coaches provide a unique balance of empathy, lived experience, and accountability. Through generous partner grants, Recovery Coaching is provided at no cost to the individual.

Supportive Outreach Program

SOP seeks to reduce SUD, fatal and non-fatal overdose, and other drug-related incidents through in-person & remote outreach to affected individuals. Outreach provides opportunities for intervention, support, harm reduction education, naloxone training and distribution, information about the Good Samaritan Law, treatment, and linkage to a Recovery Coach for ongoing support. The intent is to provide assistance & support to individuals where they are.

Youth Based Recovery Supports

YBRS is designed to prepare Youth Leaders, between the ages of 12-21, to support their peers who may be struggling with substances themselves or within their families. Applicants are matched with trained Peer Youth Volunteers based on fit, and the Volunteer's ability to provide the needed level of support. These may include 1:1 visits, as well as Peer led group events. Youth Volunteers then meet weekly for continuing education, supervision, and support. Ongoing youth-lead support group meetings are available.

Turning Point TV

A video podcast dedicated to all things Recovery. We bring you interviews, entertainment, and information about recovery and resources in our community. Subscribe to our YouTube channel.

Recovery Ready Workforce

RWW connects employers, workers, and job seekers with resources and supports to create better outcomes for everyone. We offer workshops for employers who want to become "Recovery Friendly". These sessions build capacity for empathy and understanding of SUD as a treatable disease. Employers learn valuable tools to support their current workers seeking recovery, such as connection to recovery coaching, the science of addiction, and referral to state & local initiatives. We collaborate with Working Fields to connect folks to employment.
